# Company

**Ultravelox snc formulates, packs and markets chemical compounds for a variety of uses.**

**Since the 50's it has been producing compounds for cleaning and maintenance in the home, DIY, model-making etc.**

In recent years it has expanded its range of products adding a line of chemical compounds designated to the treatment of wood, a multipurpose transparent resin for treating slippery surfaces and a combined treatment to repair and seal the gaps between tiles and bathroom fittings.

Over the years it has obtained several patents for a variety of devices (the snail rolls used to hold and cut off adhesive tape, the "magic" roller - a paint dispensing device for painting gaps between tiles etc.).

**Ultravelox formulates and packs third party products for the retail market.**

# Our Partners

Ultravelox considers that in order for its products to be successful, it is necessary to collaborate with all its stakeholders, including suppliers and its main commercial partners, and focus on a common denominator to pursue the goals and objectives of the company, to the advantage of all concerned.

We have been suppliers to a range of renowned brands for many years (HRHODIA spa, HENKEL spa - PATTEX, MONTEDISON spa, ELIZABETH ARDEN, GUCCI spa, MAIMERI spa, Ferrario spa etc.), and **we are often involved in providing input during all project phased: design, planning, formula development, packaging, packing and delivery to logistics charged with distribution of the products.**

**Ultravelox collaborates with:**

Elizabeth Arden

# Products

**Ultravelox's chemical products are compounds that help to resolve everyday problems in the home.**

**They are products used to clean, maintain and repair objects in the home and are vital for all DIY fanatics.**

The quality of Ultravelox's products is as high as that used by professionals and hence guarantees reliable and satisfying results. They are easy, ready to use products which comply with all European Directive requirements concerning labelling and toxicity levels, they can be used by anyone following the technical and applicative instructions provided on the pack.
